Installation Instructions, LPA764, vertical-install adjustable tilt bracket

INTELLIGENT INSTRUMENTATION®

◄

LPA764 provides a convenient way to mount the LANpoint 7 Data Collection Terminal on a wall or other vertical surface.

►
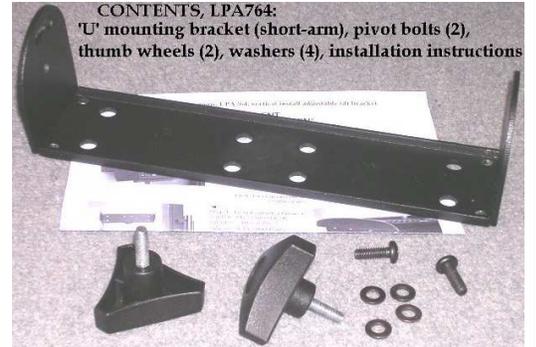

LPA764 contains these components

CONTENTS, LPA764:
'U' mounting bracket (short-arm), pivot bolts (2), thumb wheels (2), washers (4), installation instructions

◄

Step 1: Install cable(s) through wall or other convenient routing. Attach the 'U' bracket with appropriate anchors. The bracket can be used as a template to mark anchor spots.

►
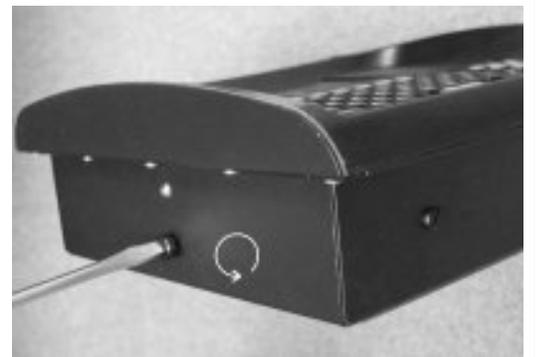

Step 2: If terminal has nylon waterproof screws on its sides, remove them (4 places)

◄

Step 3: insert two (2) bolts & washers in center pivot holes, and insert two (2) handwheels & washers in swivel slot

►

Finished: Attach any other accessories & swivel terminal to most comfortable viewing angle
